About our Speaker

Website:

www.indianadaylilyirissociety.com

Greeting Gardening Friends,

I hope you got your NCAP daylilies safely tucked in and are ready to carefully tend them for the next three years. Are you ready to order some Japanese iris after hearing the presentation by Chad Harris last month? This month Lynda Miller, who formerly lived in IN and was a member of IDIS, will be our speaker. Don't forget the hour of judge's training on tall bearded iris that she will lead from 4:30-5:30. Read about her presentation elsewhere in the newsletter.

Thanks to those who donated plants and helped staff our booth at the Hendricks County Master Gardener Show. We talked with a number of attendees and sold all the plants we had, earning \$130 for the club.

Thanks to all who exhibited flowers at our Iris Show! There were over 100 entries and a rainbow of colors. This month will bring us to the Daylily Show. This will give you a chance to present some of your nicest daylilies and help educate the public in the variety of forms/colors of daylilies. A special thanks to those who organize, and make our shows run smoothly. That's a gift to our club.

See you soon,
Rod Maust, President

"Hybridizing with Lynda"

Lynda Miller will be our speaker on Tuesday, June 5 at 6:30pm. Over 10 years ago Millers (2006 Roger, 2007 Lynda and Nathan) left the long, cold, and burrowing winters of Indiana to pursue the dream of living in plant heaven, Oregon. Miller's Manor Gardens was a mail order iris, daylily, and hosta operation along with a small nursery specializing in unusual perennials, shrubs, and trees many of which were sourced from Oregon. The commercial business was closed with the move allowing more time for hybridizing, true gardening and plant searching.

Lynda is the iris hybridizer and works with all sizes of bearded iris. She specializes in MTB's and TB's. True MDB's (not runted SDB's) are also a favorite project. The iris garden is limited to nearly an acre with her TB seedlings being forced off-site for their maiden bloom. Space limits the collection to approximately 600 registered varieties and 300+ selected seedlings in the valuation process. The iris are grown in long rows to allow for cultivation and are all dug each year with only 2 or 3 rhizomes per variety retained. Currently nearly all dwarf and median seedlings make their first appearance in the home garden. Lynda's 2018 introductions are available at Mid-America Gardens.

She will be giving a one hour judge's training on tall bearded iris starting at 4:30. Please join us for her presentation.

Indiana Daylily-Iris Society

2018 IDIS EVENTS

(all meetings 6:30 P.M. at First Friends Church (parlor) 3030 Kessler Blvd., East Drive, Indianapolis, unless otherwise noted)
